

From Frustration to Freedom

Break Free from Outdated EHRs

Arize from Cantata Health Solutions is a modern EHR built for behavioral health and human services. Unlike outdated, rigid systems, Arize puts you in control with tools that can run right out of the box, or can be easily configured to adapt to your work.

Arize EHR

-  **Easily Adapts to Your Work**
Reduce reliance on vendor support with Arize's easily configurable tools that allow you to expand the system as you grow.
-  **Modern User Interface**
Clean, intuitive interface that reduces frustration and increases satisfaction.
-  **Integrated Tools**
Built-in telehealth, methadone dispensing, and AI-powered chart summaries empower you to elevate care.
-  **Full Mobile Functionality**
Access Arize anytime on any device, making real-time updates possible.
-  **Enhanced Team Collaboration**
Secure, instant information exchange between care teams.
-  **Meaningful Client Engagement**
Enable clients to participate in their own care and securely communicate and exchange information with providers.

Outdated Legacy Platforms

-  **Vendor-Dependent Customization**
Costly, time-consuming vendor-dependent customization and updates.
-  **Cumbersome User Interface**
Clunky interfaces that require extensive learning, frustrate staff, and lead to errors.
-  **Disjointed Tools**
Tools are bought or bolted on, complicating workflows and often requiring separate solutions.
-  **Limited Mobile Functionality**
Restricted mobile access, limiting productivity.
-  **Outdated Collaboration Tools**
Poor coordination, communication, and delays due to outdated tools.
-  **Limited Client Engagement**
Clients are required to download a separate application/portal that limits their communication with providers.
